250 SHAVED SLITS

VOLUME 1, NUMBER 1

The advantages of a girl who has shaved the hair from her pussy are countless. There can be, for instance, nothing so arousing as watching a lithe, young girl delicately lather her vulva, and then spread her legs apart as she intently strokes her cleft with a razor.

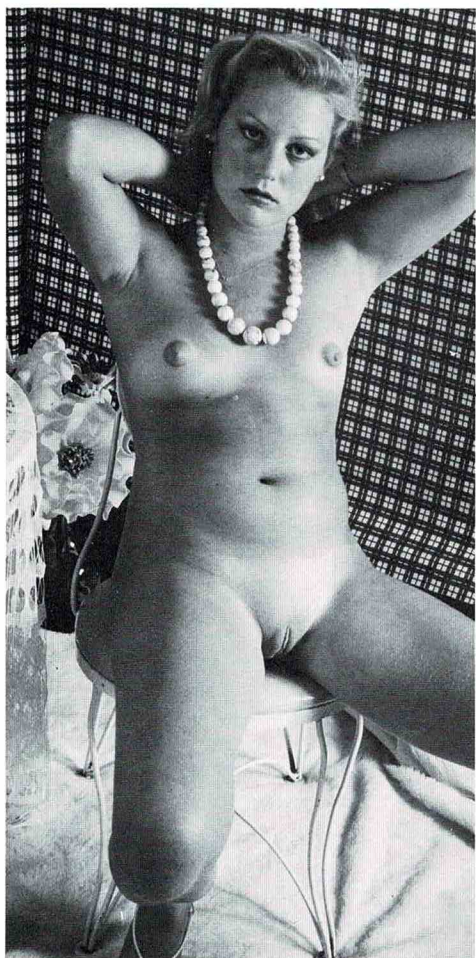

But that's only the beginning. Watch a hairless cunt closely. A shaved pussy is a living thing that moves when it's stimulated. The flesh can crawl from the excitement of a man's touch, or the arousal of feeling a finger pass between moist, slippery cuntal lips.

The astonishingly arousing sight of a young girl's inner pink membrane flesh is much more easily obtained from a girl who has sheared off her curls. All she needs to do is spread her thighs, just a little, for a glimpse of the erotic interior of her pussy. There's also something about a girl with a shaved vagina touching herself that sends shivers down the spines of the most experienced men.
